Santa Paws is coming to town! Yes, Rover, there IS a Santa Paws! We all have a furry friend or know someone else who does, and in these leaner times, the family budget can get cut to where the fun little extras for your pet can't be managed.

For many people, their pets are a huge part of their life. Their pet may be the only family they have and they provide unconditional love, laughter, and companionship. Working with League for Animals & People of the Summit, we see many instances where people put the health of their pet first and often times max out credit cards or pay a rent bill late so their pet can get the care it needs. We understand this connection between people and their pets. We would like to help people who may be having some financial difficulty give back some of the happiness that they get from their pet.

L.A.P.S. is organizing a Santa Paws Drive where you can donate a new toy or treat for a dog or cat to be given to a pet parent who may not be able to give their pet a gift this Christmas. Many of us spoil our pets rotten and think nothing of buying a \$10 squeaky toy or a bag of Greenies. We enjoy our pet's "happy face" when we can give them treats. With your help, less fortunate pets can have that same satisfaction.
